

PowerCheck your home—make sure it is safe!

Whatever type of electrical system you have, we will check it to assure that it is safe:

- Knob-and-tube
- Aluminum wire
- 60 amp service
- Old wiring types

Clear and Helpful Electrical Report:

- Full-house, comprehensive 80-point electrical examination
- Old house wiring described as "Low", "Medium", "High" or "Extreme Risk" of electrical fire
- Actions to bring house to "Low Risk" and "Medium Risk" clearly presented

PowerCheck Examiners:

- Provide impartial evaluations—
with PowerCheck there is no conflict of interest. Our examiners are solely there to point out fire hazards that may be lurking.
- All examiners highly qualified—
master electricians and/or
BC Field Safety Representatives

We are:

- Inexpensive: Starting at \$380
(for standard single family home)
- Fast, Reliable and Accurate
- Across Western Canada and Southern Ontario
- Licensed, bonded and insured
